Full Product List Provided By CityDentureClinicNI.com (Allied Dental)

### **Full Upper and Lower Dentures**

All our dentures are made using high impact acrylic and premium quality acrylic teeth. Our dentures are all made in house by our own dedicated and experienced Dental Technicians at our dental laboratory, therefore adjustments can be made easily to meet individual requirements resulting in natural looking, comfortable dentures.

### **Partial Dentures**

We are able to create partial dentures that match perfectly with your existing teeth with each tooth being individually adjusted by hand if necessary. You would have to arrange for a check up appointment with a local dentist, who will be able to carry out an examination and x-rays if required to make sure that we are building on good foundations

### **Relines**

A Reline could be a cost effective way of making old dentures fit in the mouth more securely.

### **Additions**

Addition of one tooth to acrylic denture is £75.00 and £25.00 for each additional tooth that is required.

### **Denture Repairs**

For Cracks and Breakages of dentures we offer a while you wait denture repair service, all day service, postal denture repair, as well as being able to return the next day, prices for repairs start £20.00

### **Chrome Cobalts**

Chrome Cobalt partial Dentures are an excellent nickel free alternative to conventional acrylic dentures, as they can sometimes be designed to cover less of the palette to provide better sensation of taste, enabling you to enjoy your food! as well as being very durable.
